Soon I want to open my own training
center and it gives me pleasure

MAXMUDOV SAMANDAR ALISHEROVICH

Back-end and Front-end Developer

About me: Passionate Back-End and Front-End Developer 🌟

Hello! My name is Samandar and I am a 15-year-old developer who is passionate about creating dynamic and user-friendly web applications.

I studied Front-End and Back-End Development to create complete projects. On the front end, I work with technologies like HTML, CSS, and JavaScript to ensure that designs are functional and visually appealing. On the back end, I specialize in managing databases, APIs and server logic using tools like Node.js, Python (Django/Flask) or other modern frameworks.

My main dream is to take my skills to the next level and work with international teams. I am excited to contribute to learning, growth and innovation projects in the global technology industry.

- If you're as passionate about technology as I am, let's connect and build great things together! 🚀

EDUCATION HISTORY

Where did he study?

I have been studying since 2024. These are the places I read

- Sifat
- WoxWeb prime
